NOVALUS

Attila Vidákovics

CEO

economyst, crypto whiz kid,
university lecturer (DeFi),
radio presenter

Péter Molnár

CTO

economist, software
engineer, smart contract
wizard, blockchain architect,
blockchain strategist

Wigy

LEAD DEV

software engineer, runtime
and pallet writer, Rust
developer

Tom the Great

PROJECT LEAD

engineer, economist, project
management expert, former
IT COO, controller

Sándor Murányi

**LEADER OF BLOCKCHAIN
DEVELOPMENT**

Horváth Barnabás

CMO

economist, crypto user,
marketing expert

STABILITY IS ENSURED BY THE RESULTS ACHIEVED OVER 4 YEARS

37.000.000 USD

During the first 4 years, the project was funded through community crowdfunding.

35 000+ COMMUNITY

We are looking for smart people who understand the philosophy of blockchain technology.

2700+ VALIDATORS

From the launch, chain will operate with a decentralized and distributed network!

NOVALUS PRIME

A company that has proven it only brings top-tier projects with verified developer teams — and is now launching a completely new, revolutionary project, not with just one world-class team, but with two!

01

MOSAIC ALPHA

copy trade platform - fully operational since 2023

02

MOSAIC CHAIN

Blockchain optimized for DeFi - finished to launch

05

HIGHWAY

STARTING NOW!

03

MOSAIC LAUNCHPAD

Decentralized Launchpad - finished to launch

04

MOSAIC HORIZON

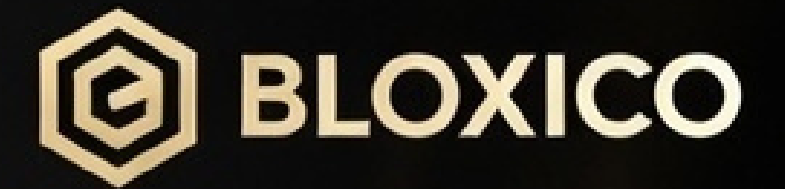

Decentralized AI; under development.

BRAND NEW: HIGHWAY

CUSTOMER

WHO IS WHO?

WHO IS BLOXICO?

Their services include software development, IT outsourcing, and blockchain consulting. Their references include major Web3 projects such as Tixbase (a decentralized ticketing platform), Flare (a data-oriented Layer 1 chain), Atala SCAN (product authentication on the Cardano base), the Catalyst Voting Platform, and the Filecoin testing matrix. The company was founded in 2018.

100+

They work with over
100 experts.

1152%

Since their launch, they
have achieved 1,152%
growth.

9th

They ranked 9th on
Deloitte's Central
European Fast 50 list.

Deloitte.

NENAD TANASKOVIĆ

CEO, Blockchain Strategist, Technologist, Innovator

Nenad Tanasković is a highly respected figure in the European blockchain and fintech space, combining over three decades of international experience in software engineering, IT leadership, and decentralized systems.

As the CEO and co-founder of Bloxico, he has positioned the company as a trusted development partner for some of the most prominent blockchain networks and institutions globally. Under his leadership, Bloxico became one of the fastest-growing tech companies in Central Europe, recognized for its contribution to large-scale Web3 infrastructure projects, smart contract development, and validator operations.

Prior to founding Bloxico, Nenad held executive roles in fintech firms listed on the London Stock Exchange, where he led mission-critical projects in financial risk management systems. He is deeply committed to applying blockchain technology to real-world use cases—particularly in energy, finance, and decentralized identity—and is known for his strategic, solution-oriented mindset.

ROBERT PAUŠIĆ — Co-Founder

Sales Strategist, Fundraising Expert

Robert Pausic is one of the driving forces behind the Mosaic Galaxy and Highway ecosystems, combining over 30 years of experience in marketing, communication, and leadership with deep technical knowledge in programming that dates back to 1983.

As co-founder and fundraising director of the Highway project, Robert leads global expansion, community engagement, and decentralized fundraising initiatives across multiple regions. Through his strategic sales and educational work, he has built one of the strongest international growth networks within the Mosaic ecosystem.

As an authentic leader passionate about freedom-oriented technologies, Robert serves as a bridge between traditional marketing and decentralized innovation — transforming complex blockchain concepts into tangible value for people.

BLOXICO
SUCCESS TO MORE IN BLOCKCHAIN SOLUTIONS

ALEX DIMITRIJEVIĆ

Growth @Web3 Foundation (Polkadot)

Head of Growth / Partnerships with seven years in the web3 industry, the last three dedicated to elevating the Polkadot ecosystem (Web3 Foundation & Parity). Specialized in designing GTM and growth strategies for both EVM L2 and non-EVM L1 networks, focusing on UX, DevX, DeFi and Entertainment. Successfully landed over 30 Tier 1/2 projects and built pipelines exceeding \$500M TVL and \$800M trading volume within months of launch.

Experienced in managing investor relations with Tier1 venture and liquid funds, guiding ecosystem growth through tailored DeFi, yield, and liquidity programs. Adept at coordinating cross-functional teams — from engineering to infrastructure — to ensure compatibility and scalability across enterprise deployments.

Led major enterprise and institutional collaborations, including a \$12M on-chain product deal with a Premier League football club, projected to onboard 3M users and generate \$20M+ NFT volume. Actively supported ecosystem projects (chains, dApps) with go-to-market, fundraising, and liquidity solutions, while maintaining a collaborative framework with internal and external partners.

Biography text generated by ChatGPT to provide an objective summary.

ANDREJA MARKOVIĆ

Blockchain Product Lead

Andreja Marković is a seasoned blockchain specialist and technical product manager with extensive experience in decentralized technologies. He has held key roles at Bloxico, a prominent blockchain and fintech company, where he served as Product Owner and Blockchain Specialist.

In this capacity, he was instrumental in leading product development and implementing blockchain solutions. Marković is also recognized for his contributions to blockchain education and community engagement. He has delivered presentations on blockchain consensus algorithms, including Proof of Work and Proof of Stake, at events such as House of Web3, where he elucidated the mechanisms that make blockchain networks resilient to various types of attacks.

His expertise spans blockchain architecture, consensus mechanisms, and the integration of decentralized technologies into real-world applications. Marković continues to be an active contributor to the blockchain ecosystem, focusing on the development and optimization of decentralized systems.

TODOR TODOROVIĆ

Blockchain Architect

He is blockchain developer with a strong background in decentralized systems and smart contract architecture. He graduated with a degree in Computer Science from the University of Belgrade and further specialized in Web3 technologies through the Polkadot Blockchain Academy.

His expertise centers on building secure, scalable blockchain components using Substrate, with a particular focus on validator infrastructure, consensus mechanisms, and cross-chain communication protocols. In addition to his development work,

Todor is actively involved in education and mentorship. As a mentor at Web3 Kamp, he supports the next generation of developers in mastering blockchain fundamentals and hands-on Rust programming within the Web3 space.

His approach combines deep technical knowledge with practical, community-oriented teaching.

Todor is now contributing to the Mosaic Highway project as a core developer.

What is a Relayer / Bridge?

A Relayer (or Bridge) is a node that earns swap fees by transferring assets from one blockchain to another — enabling smooth cross-chain transactions!

BLOXICO

SECOND TO NONE IN BLOCKCHAIN SOLUTIONS

HIGHWAY

Powered by Mosaic Chain

6000+ RELAYERS

Blockchains:

- Solana
- Ethereum
- Binance Smart Chain
- Polygon
- Tron
- SUI

CROSS-CHAIN BRIDGES MADE SIMPLE

Strong Demand

Market value: \$143 billion
in 2024
Growing 27% every year until 2033

Security Alert

Over 40% of crypto thefts
involve bridges
Losses: \$2.8 billion

Recent Example

June 2025: Force Bridge
hacked
Loss: \$3.7 million

Market Overview

More than 20 bridges exist
But few are truly decentralized

Future Growth (DeFi Tech)

COMPETING BRIDGES

POLKADOT

#	Blockchain	Type of connection	Decentralized	Validators / nodes
1	Ethereum	Snow bridge, Wormhole	Partially	Snow bridge ~25 signers
2	Binance Smart Chain	Multichain, Celer	No	Multichain ~20 nodes
3	Solana	zkBridge research phase, Wormhole	No	Wormhole guardians: 19 nodes
4	Cosmos (IBC)	Composable Finance, Picasso	Partially	Cosmos Hub ~180 validators
5	Avalanche	Wormhole	No	Guardians: 19 nodes
6	Bitcoin	Interlay (BTC bridge)	Yes	Vaults ~50+
7	Polygon	LayerZero, Multichain	No	Layer Zero: DVN, around 30
8	Arbitrum	LayerZero, Wormhole	No	Guardians: 19 nodes
9	Optimism	Wormhole	No	Guardians: 19 nodes

What is AI Arbitrage

THE
ART
OF
THE
ART

Arbitrage means earning profit by taking advantage of price differences of the same asset in two or more exchanges or markets — without taking any risk

← In simple words: Buy cheap in one place — sell high in another —→
instant profit. →

Example: $\$68,700 - \200 profit BTC →

EASY ARBITRAGE: THE SMART WAY TO TRADE

✗ OLD WAY (Hard & Risky)

You need millions of dollars locked up. High chance of failure. Only big companies can play.

NEW WAY (Easy & Smart)

Pool Resources: Team up with others. No need for millions alone.

Super Fast: 90% success rate. Minimal cost. Protected from risks.

High Efficiency: \$50K can move \$1M in daily trading volume.

Smart AI: Combines fast small profits + slow big profits.

CRYPTO LIQUIDITY & ARBITRAGE OPPORTUNITY (FEB 15, 2026)

- Global 24h Spot Volume: \$178–\$216 Billion
- DEX 24h Volume: \$18.9 Billion
- Bridges 24h Volume: ~\$0.98 Billion
- Fragmentation: 198 Chains • 842 Exchanges

Scenario	Available Base Share	Available Daily Volume	Realized Margin	Daily Arbitrage PnL
Conservative	DEX 0.5% CEX 0.15%	\$384M	3–5 bps	\$115k–\$192k
Base Case	DEX 1.0% CEX 0.25%	\$672M	5–7 bps	\$336k–\$470k
Aggressive	DEX 1.5% CEX 0.35%	\$959M	7–10 bps	\$671k–\$959k

SOFTWARE PACKS

CV =
60%

Netto price (USD)	100	250	750	1500	5.000	10.000	25.000
Digital Certificate	1500	3,750	11.250	22.500	70.000	150.000	500.000
Relayer	1%	2,5%	7,5%	15%	Nomad	Anchor	Vanguard

The \$100, \$250, \$750, and \$1,500 packages are merged into one Anchor package, and the company ensures the launch of these Relayers in multiple data centers. 10% of the rewards earned by the **Relayer** are allocated to cover server deployment and maintenance costs. Each package holder receives a share of the rewards based on their proportional ownership in the \$10,000 package - with no time limitation.

DOUET

If you don't have
money to buy
then don't worry

You can get it **FREE**
by sharing this opportunity to others

FREE PACKAGES!

Free Package	100	250	750	1.500	5.000	10.000	25.000
Required volume	400	1.000	3.000	6.000	20.000	40.000	100.000

It is possible to earn free packages by recommending our project to friends. This is a reward for contributing to the growth of the project. Not only direct referrals count, but also those who joined through your referrals – even down to unlimited depth. There are two limitations:

1. Activity must occur within the past 30 days.
2. **50% rule:** To reach a target reward, no more than 50% of the required volume can come from your most active referral; the remaining 50% must come from others.

Example: If your goal is to earn a \$1,500 package by generating \$6,000 in volume, no more than \$3,000 can come from your most active contact.

7+1 COMMISSION TYPES

REFERRAL	Direct bonus, first and second line (15%, and 5% of CV value)
INFINITY	Infinity bonuses, packages and careers, 5 x 1%
TRADER	Passive income from copy trading platform
BINARY	10% from the weaker leg, paid infinite. Twice as many are deducted from stronger leg
MATCHING	Up to 7 levels deep, career dependent
DIAMOND POOL	Shares, career, 3% of 6 months volume, from Diamond upward
CAR PROGRAM	Career, 6 months volume, from 30.000 up to 120.000 USDT
EARN PACKAGES	In 30 days, you can earn packages for free!

The opportunity to earn free packages is one of the greatest innovations in network marketing – but only if it's backed by a valuable, revolutionary product like this one. Everything you earn from referrals can be spent freely on your personal or business needs, while at the same time you're accumulating high-value packages that can provide substantial passive income in the future.

This is the opportunity you've always dreamed of – even if you've started to lose hope!

Expected Monthly Income Potential As per Chat GPT

Investment Packages	1st Phase May 2026 (4 Chains)	2nd Phase Dec,2026 (7 Blockchains)	3rd Phase Dec,2027 (10 Blockchains)
100\$	12\$ - 40\$	50\$ - 90\$	100\$ - 180\$
250\$	30\$ - 100\$	125\$ - 225\$	250\$ - 450\$
750\$	90\$ - 300\$	375\$ - 675\$	750\$ - 1350\$
1,500\$	180\$ - 600\$	750\$ - 1350\$	1500\$ - 2700\$
5,000\$	900\$ - 1790\$	2,500\$ - 5,000\$	5,000\$ - 8,000\$
10,000\$	1,200\$ - 4,000\$	5,000\$ - 9,000\$	10,000\$ - 18,000\$
25,000\$	5,000\$ - 10,000)	13,000\$ - 22,000\$	25,500\$ - 50,000\$

ROADMAP UPDATED

*MVP – Minimum Viable Product (the first working version with the core functionalities)

WHAT IS THE MAIN QUESTION?

It's not a question of how much money I need to invest in a package
— it's about how much money I want to protect from inflation.

We can also ask ourselves: how much passive monthly income do we
want to have in the future?

GET OUT OF THE BOX

Take advantage of this opportunity!
